

HYCON HCS16 POWER DRIVE CUT-OFF SAW

QUICK BLADE STOP

LOW WEIGHT - COMPACT SIZE

MOST POWERFUL MOTOR IN THE WORLD

PRODUCT FEATURES

The HYCON HCS cut-off saw cuts all types of concrete, steel, brick wall, asphalt, etc. It is completely unaffected by water and dust, and all parts run in oil. The HYCON HCS saws are built for hard use day after day – without breakdowns. The HCS16 can be used for horizontal and vertical cutting.

The saw stops automatically if the blade jams thanks to the pressure relief valve.

The blade stops rotating a maximum of 10 sec. after releasing the trigger, ensuring no injury to the operator.

Our proprietary motor, the HYCON Power Drive, is the strongest motor on the market, and with max 40 bar return pressure, it doesn't blow seals. That means more time at the job, less time in the shop. Flushing water runs through the body and hydraulic motor for extra cooling and to keep all surfaces cold.

HYDRAULIC CUT-OFF SAW HCS16 POWER DRIVE

Item no.	3030411
Weight w/o hoses and disc [kg]	9.1
Blade dimensions Ø [mm]	400
Cutting depth [mm]	162
Oil flow [LPM]	20 - 40
Working pressure [bar]	120
Max pressure [bar]	172
Rotation speed max [rpm]	3900
Max return pressure [bar]	50
Whip hose length [m]	2
Sound power level L _{Wa} [dB]	108
Vibration level, 3 axis [m/s ²]	< 2.5

ACCESSORIES

SawEZ Guide Rail (NOTE: Adapter not included) Product no. 4040100

THE HYCON PRODUCT RANGE

CUT-OFF AND RING SAWS · HAND SAWS AND POWER SAWS · CORE DRILLS · ANGLE GRINDER · LIGHT & HEAVY DUTY BREAKERS
SUBMERSIBLE PUMPS · ROCK DRILLS · UNDERWATER EQUIPMENT · GASOLINE, DIESEL AND ELECTRIC POWER PACKS
