

HWP2 PowerDrive Submersible Pump

IDEAL FOR SMALL MANHOLES AND TIGHT SPACES

HANDLES DIRTY WATER AND SOLIDS

EQUIPPED WITH THE HYCON POWERDRIVE MOTOR

PRODUCT FEATURES

Although compact and light, the HWP2 pump can pump up to 47 m³/h under ideal conditions. The outside diameter of the pump is only 24 cm at its widest, making it ideal for small manholes where the space is tight.

The pump is unaffected by dirty water and solids. In utility and construction work, heavy-duty pumps are necessary to secure no downtime at the job site.

The pump is equipped with our HYCON PowerDrive motor, ensuring incredible reliability and up to 40 bar return pressure, letting you use even longer hoses.

The PowerDrive motor ensures an all-day, everyday operation without damage to the engine or the seals if the pump runs dry.

HYDRAULIC SUBMERSIBLE PUMP HWP2

Item no.	3030022
10 m discharge hose with couplings	4032697
Weight without hoses [kg / lbs]	7.7 / 17
Dimensions L x W x H [cm]	24 x 16 x 32
Optimal oil flow [LPM]	30 / 8
Max pressure [bar]	172
Max return pressure [bar]	40
Max flow capacity [m ³ /h]	47
Max head [m]	30
Max size of solid particles Ø [cm / inch]	3 / 1.2
Outlet size and connection, female thread	2" Camlock / BSP 2"

PLEASE NOTE: Discharge Hose and Camlock fitting not included.
