

TECHNICAL DATA SHEET SILENCED COMPRESSOR

Three Phase Fixed Aluminium Piston Compressor

PSe7.5s-500L-3-D S/D_F

Type: Silenced | Start Delta with Dryer

This series of silenced belt driven compressors are designed to meet the needs of professional and industrial applications where low noise levels are critical. Have been developed to satisfy market demand for compressors that are silenced, reliable, economic and easy to maintain. Available in a power range of 2 to 10 HP and working pressures up to 11 Bar with or without a refrigerated dryer. They are available on a base or on a tank.

TECHNICAL DATA SHEET
SILENCED COMPRESSOR

>>Main Data

Model	PSe7.5s-500L-3-D S/D_F Alum Piston Compr
Type	Silenced
Starting	Start Delta w/dryer
Motor (V)	400
Capacity PD (l/min)	872
Capacity PD (CFM)	30,79
Motor (kW)	5.5
Motor (HP)	7.5
RPM	1200
Pressure (BAR)	11
Pressure (PSI)	160
Tank (L)	500
Noise Level [dB(A)]	69
Dimensions (mm)	2005x970x1660
Weight (Kg)	352
